STATEMENT BY THE HONOURABLE W. DARCY McKEOUGH
TO THE LEGISLATURE OF ONTARIO

Mr. Speaker:

Since 1969, the Ontario Government has made a determined effort to alleviate the relative burden of property taxes. This was done in spite of severe pressures on the Province's own financial position. However, tax reform and notably relief of property tax burdens had become one of the Province's high-priority objectives. The approach to moderating property tax burdens has been to introduce a number of complementary programs:

- . Property Tax Credits -- these were designed to provide relief from existing property taxes to low-income people. These credits were significantly enriched over the past few years to protect those most vulnerable to inflation. In 1975, the value of these credits alone should reach about \$275 million.
- . Pensioner Credits -- an additional tax credit was made available to needy pensioners. This assistance has proven invaluable to these pensioners and is presently at a level of about \$50 million.
- . Grants to School Boards -- the Province's overall support was gradually raised from 48 per cent in 1969 to 60 per cent in 1973 and is currently estimated at \$1.5 billion. This move represented a significant shift away from the property tax.
- . School Board Spending Ceilings -- in addition to higher support rates, the property taxpayer is further protected by successful spending constraints imposed by the Province.

- . Conditional Grants Enrichments -- in a number of critical and high-cost areas, the Province introduced considerably more attractive cost-sharing arrangements. This was the case for such functions as water and sewerage, transit, social assistance, libraries, and housing.
- . Unconditional Grants -- the most significant reforms of transfers to local government were made in unconditional grants. The 1973 Property Tax Stabilization Plan involved a very large enrichment. It contained a comprehensive package of different unconditional grants to deal with a great variety of circumstances. It dealt with the problem of unequally distributed local tax bases; it dealt with a general local financing problem; it further recognized the differential fiscal need of communities that pay for their own policing; and it made allowance for special cost problems associated with non-permanent population.
- . Northern Ontario Special Assistance -- The Ontario Government also recognized the special circumstances under which the people in Northern Ontario live. They face high heating costs; they face high costs for most commodities because of long distance transportation costs; and their local governments face similar cost disadvantages. The unconditional grants package, therefore, contains a special support grant to Northern Ontario municipalities to ensure generally lower property tax burdens in the North than in the South. In this way, Northern Ontario households enjoy an offset-cost advantage over the South. This year, the special support grant to the North is being enriched considerably.

The above comprehensive Ontario approach to relief of property tax burdens prevented the large increases in property taxes that would otherwise have been inevitable. The past two years witnessed the effects of inflation on local government spending, which far outstripped the revenue growth of its relatively inelastic tax base. (Of course, at present the local tax base fails to reflect the very real growth that has occurred in property values during the past few years.) Nevertheless, the measures taken by the Ontario Government made it possible for the provincial average mill rate in 1974 to remain below the average mill rate of two years previously. In addition, property tax credits provided yet further relief from these already lower mill rates. During the same period, personal incomes in Ontario experienced a large increase and so did people's ability to pay. It is fair to conclude, therefore, that the Ontario Government reform has resulted in a dramatic reduction in the relative burden of property taxes.

In respect of the 1975-76 fiscal year, the Province has reviewed its total transfers within the context of the revenue-sharing commitment. The total estimated basic transfers in 1974-75 amounted to \$2,325 million, some \$37 million higher than originally anticipated. However, Provincial revenue growth turned out considerably in excess of the 11.7 per cent predicted last year. In other words, transfers to local governments could have reached as high as \$2,392 million, if Provincial revenue growth at 18.9 per cent had been taken into account.

The Ontario Government will fully honour its revenue-sharing commitment, including the shortfall during 1974-75. As a result of considerable tax cuts, notably in the retail sales tax, the Province's revenue growth rate in 1975-76 will be 10.3 per cent. Adding this growth rate to the full Commitment for last year allows the Province to increase total transfers in 1975-76 by \$380 million. This amounts to an increase of 16.3 per cent over last year's total transfers.

Most of the dollar increase is accounted for by conditional grants, such as school grants, transportation, transit, and social assistance. More modest residual increases to unconditional grants allow the Province to deliver in 1975 some \$60 million or 23.5 per cent more in unconditional grants than during 1974. In addition, special payments to restructured governments will rise by \$5 million.

In designing the 1975 unconditional grants package, the Ontario Government has emphasized greater simplicity for General Support Grants, the special cost problems for Northern Ontario residents, the special position of the District of Parry Sound, as well as the unique and severe cost increases for municipalities with their own police forces. In simplifying the General Support Grant by introducing a flat rate and removing the spending growth schedule, the Government does not imply less urgency in restraint. The latter remains of the utmost importance.

The new General Support Grant I have introduced will provide greater certainty, it will be responsive to local tax effort and fiscal need, and it will avoid many administrative complications. Northern Ontario residents will benefit from a 42 per cent increase in the Northern Ontario Special Support Grant. This will go a long way in further alleviating the differential living cost faced by those living in the North. A 69 per cent increase in unconditional grants towards policing will take much of the sting out of the rapidly rising costs confronting municipalities with their own police forces.

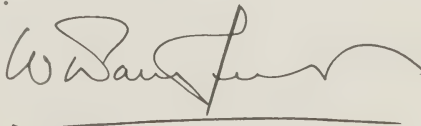

I am also pleased to announce another important reform. As the Honourable Members know, we already have introduced a fixed split mill rate differential of 15 per cent in all regional governments. This means that residential and farm taxpayers have a 15 per cent lower mill rate than commercial and industrial taxpayers. Outside present regional governments, however, the split in mill rates still varies a great deal. This year the Government will standardize the

fixed split mill rate at 15 per cent throughout the province. This measure will greatly simplify the apportionment process and make for significant administrative advantages, notably to local treasurers. It will also enhance overall equity as the split in mill rates will no longer relate to the particular assessment mix in each municipality. I have decided that, in 1975 only, we will cushion the impact of this change on residential taxpayers to avoid increases in taxes in excess of 5 per cent on account of this change.

In reviewing the period 1969 to 1975, I am delighted to highlight to you that the Province's total revenue has grown, on average, by 12.6 per cent while financial assistance to local governments has risen by 16.5 per cent per year. As a result, such financial transfers have increased from 24.5 per cent of Provincial revenue in 1969 to over 30 per cent in 1975. This rise in the local share of Provincial revenue in itself is worth over \$500 million in 1975 alone.

The document I am tabling today contains all the details on the 1975 unconditional grants package. It also provides tentative estimates for the entitlements to those grants for each municipality. In Section II, we display for all municipalities the 1974 property taxes per household and the change in mill rates during the past four years. In Section III, we show on a more selective basis the 1970 and 1973 values for offsets against property taxes in the form of tax credits and rebates.

I am pleased to make this document available to all Members of the Legislature, to all our local governments, and anybody else who may be interested in the Province's progress in tax reform and assistance to local governments.

A handwritten signature in dark ink, appearing to read 'W. Darcy McKeough', written over a horizontal line.

W. Darcy McKeough
Treasurer of Ontario

SECTION I

FINANCIAL TRANSFERS TO LOCAL GOVERNMENTS

1975-76

FINANCIAL TRANSFERS TO LOCAL GOVERNMENTS -- 1975-76

Summary of Total Transfers

Total basic financial transfers to local governments are estimated at \$2,705 million for 1975-76, an increase of \$380 million over the prior year. The following summary table provides an idea of the distribution of these total funds. Conditional grants account for 80 per cent of the total with some 55.5 per cent to school boards alone. Payments to local agencies, such as homes for the aged, represent 8 per cent of the total. The remaining 12 per cent are in the form of unconditional grants to municipalities.

Total Financial Transfers -- 1975-76
(\$million)

		<u>% Increase over 1974-75</u>
Education	1,500	12.7
Transportation, Transit	418	25.5
Social Assistance	164	18.0

Total Unconditional Grants	324	9.8
Payments to Local Agencies	217	20.6
	<hr/>	<hr/>
Basic Financial Transfers	<u>2,705</u>	<u>16.3</u>

The Revenue-Sharing Commitment

Under the Ontario Revenue-Sharing Commitment, the Province guarantees that basic financial transfers will grow at the same rate as total Provincial revenue. For 1975-76, the latter growth rate is 10.3 per cent. However, 1974-75 actual revenue growth would have resulted in higher transfers that year than originally assumed. In determining 1975-76 transfers, this fact has been taken into account. The following table displays how the 1975-76 total has been established.

The Revenue-Sharing Commitment (\\$million)

	<u>1973-74</u>	<u>1974-75</u>	<u>1975-76</u>
Revenue Growth Rate		18.9%	10.3%

Actual Transfers	<u>2,012</u>	<u>2,325</u>	<u>2,705</u>
Difference	NIL	-67	+67
Balance	NIL	67	NIL

The Unconditional Grants Package

The scope for enrichment of the 1975-76 unconditional grants was slightly more limited than in the previous year, but nevertheless municipalities will receive approximately \$65 million extra unconditional funds during 1975, for an increase of 23.5 per cent.

The changes introduced this year are described in detail in the next section. The most dramatic structural change involves the General Support Grant, which has been greatly simplified. The largest enrichment was made to the per capita grants towards policing costs. The following table summarizes the total unconditional grants package.

Unconditional Grants, 1974 and 1975
(\\$million)

	<u>Calendar Year</u>		<u>% Increase</u>

	-----	-----	-----

DETAILS OF THE 1975 UNCONDITIONAL GRANTS PROGRAM

The following description of 1975 unconditional grants will enable municipal officials to make a reasonable estimate of their municipalities' grant entitlements in 1975. For their guidance, the attached table contains estimates for the aggregate unconditional grants to each municipality.

Per Capita Grant - General

The schedule for this grant will remain identical to the 1974 schedule, but will apply to the updated 1975 grants population. The latter is identified in the attached table 1.

General Per Capita Grants -- 1975 Schedule

<u>Population Range</u>	<u>Rate of Grant</u>
0 - 5,000	\$6.00 x (Pop.)
5,001 - 10,000	\$ 30,000 + \$6.40 x (Pop. over 5,000)
10,001 - 15,000	\$ 62,000 + \$6.60 x (Pop. over 10,000)
15,001 - 20,000	\$ 95,000 + \$6.80 x (Pop. over 15,000)
20,001 - 25,000	\$ 129,000 + \$7.00 x (Pop. over 20,000)
25,001 - 50,000	\$ 164,000 + \$7.20 x (Pop. over 25,000)
50,001 - 75,000	\$ 344,000 + \$7.40 x (Pop. over 50,000)
75,001 - 100,000	\$ 529,000 + \$7.60 x (Pop. over 75,000)
100,001 - 200,000	\$ 719,000 + \$7.80 x (Pop. over 100,000)
200,001 or more	\$1,499,000 + \$8.00 x (Pop. over 200,000)
Regions	\$9.00

For purposes of this grant, both the District of Muskoka and the restructured county of Oxford will be considered as regions.

Per Capita Grant -- Policing

- . The unconditional grant towards municipal policing costs will be enriched from \$5.00 to \$8.00 per capita.
- . The grant in respect of regional police forces will be raised from \$7.00 to \$12.00 per capita.
- . These grants will be determined on the basis of population data described below.
- . These enrichments will transfer an additional \$29 million to municipalities in 1975.

Resource Equalization Grant

The Resource Equalization Grant is designed to reinforce the fiscal capacity of municipalities with below-average tax bases and generate more equity in Ontario's total grant structure. The 1975 formula will be enriched towards this objective in the following ways:

- . The standard has been raised from \$10,000 to \$10,300 in keeping with the increase in the average per capita equalized assessment in the province. As a result, relative assessment deficiency will be the amount by which a municipality's per capita equalized assessment falls below the standard of \$10,300, divided by \$10,300.
- . The maximum grant rate will be 25 per cent of the 1974 net general dollar levy; however, in situations involving former mining municipalities that are unduly constrained by this 25 per cent limit, the maximum will be increased to include 30 per cent of their 1972 formula mining revenue payments.
- . The 1974 net general dollar levy will be broadened to include decreases in surpluses arising in 1974.

- . For the restructured municipalities in Oxford County the grant will be calculated on the basis of 1975 net general dollar levies.
- . These enrichments will transfer an additional \$8 million to municipalities in 1975.
- . An example of how the formula works is provided below:

Equalized Per Capita Assessment		\$7,000
Assessment Deficiency (\$10,300 - \$7,000)		\$3,300
Deficiency as Per Cent of \$10,300		32.04%
60 Per Cent of Deficiency		19.22%
1974 Levy	\$1,250,000	
1974 Resource Equalization Grant	\$ 150,000	
1974 General Support Grant	\$ 60,000	
1974 Northern Ontario Special Support Grant	\$ 100,000	
1974 Decrease in Surplus	\$ 5,000	
Total Adjusted 1974 Levy		\$1,565,000
1975 Resource Equalization Grant (at 19.22%)		\$300,793

General Support Grant

This grant recognizes the inability of property tax revenues to keep pace with the rapidly increasing financial requirements of municipalities, especially during periods of strong inflation. To alleviate this situation, the following simplifications and enrichments will be made to the General Support Grant:

- . The rate of the General Support Grant will no longer be determined by expenditure growth rates. The grant for all municipalities will be equal to 6 per cent of their 1974 net general dollar levies.
- . For those municipalities which qualified for a General Support Grant rate in excess of 6 per cent in 1974, the establishment of a flat universal grant rate of 6 per cent in 1975 may prove to be unduly harsh. Accordingly, if such a municipality's 1975 General Support Grant falls below the amount received in 1974 by more than 5 per cent, the municipality will receive 95 per cent of its actual 1974 General Support Grant entitlement. This provision will apply in 1975 only.
- . The 1974 net general dollar levy will be broadened to include decreases in surpluses arising in 1974.
- . For the restructured municipalities in Oxford County the grant will be calculated on the basis of 1975 net general dollar levies.

Northern Ontario Special Support Grant

- . Each municipality in the Northern part of the Province will receive an additional payment equal to 15 per cent of its 1974 net general dollar levy. The definition of Northern Ontario for purposes of this grant remains as in 1974. The increase in grant rate will transfer an additional \$5 million in 1975.

District of Parry Sound Support Grant

- . Municipalities located in the District of Parry Sound will receive an additional payment equal to 7.5 per cent of their 1974 net general dollar levies.

Municipal Grants Population

In 1974, the population used for municipal grant purposes was updated by replacing the 1971 federal census with the 1973 Provincial census. Along with the incorporation of a temporary resident factor, the 1974 population included a protection feature to offset undue losses emanating from the change in population series.

In 1975, municipal grants population will be based on the 1974 Provincial census, again including amendments for temporary population and, for those municipal populations protected in 1974, a guarantee against excessive changes attributable to the shift in population count. As in 1974, the adjusted 1975 municipal population figures will be used by the various Ministries of the Government for grant calculation purposes, wherever applicable.

The calculation of 1975 Municipal Grants Population, published in the following table, is as follows:

- . the 1974 population as determined under Sections 23 and 23(a) of The Assessment Act; plus
- . a deemed temporary population equal to one-third the number by which the above population falls below the product of 2.5 times the number of households in 1973;
- . if the 1974 grants population was set equal to 99 or 120 per cent of the 1973 grants population, the 1975 grants population determined above is subject to a minimum of 95 per cent or to a maximum of 130 per cent, respectively, of 1973 grants population.

Split Mill Rates

- . The existing fixed mill rate differential in regions of 15 per cent between farm-residential and commercial-industrial assessment will be standardized throughout the province.
- . In 1975, the impact of this change on residential taxpayers will be limited to at most an increase of 5 per cent in residential property taxes.

Consolidation of Legislation

- . A comprehensive new Act, The Ontario Unconditional Grants Act, will incorporate all unconditional grants and replace The Municipal Unconditional Grants Act, The Regional Municipal Grants Act, and The Property Tax Stabilization Act.

TABLE 1

ESTIMATED 1975 UNCONDITIONAL GRANTS
AND 1975 GRANTS POPULATION

ESTIMATED 1975 UNCONDITIONAL GRANTS
AND 1975 GRANTS POPULATION

The 1975 grant figures in the following table are intended solely as a guide to municipalities in their budgetary process. The grants incorporated in the figures are: general per capita, policing per capita, resource equalization, general support and Northern Ontario special support grants.

With the exception of population, several components in the grant calculations are estimated. In addition, several of these estimates are based upon unaudited, forecast information supplied by municipalities. Accordingly, THE GRANT FIGURES SHOULD NOT BE INTERPRETED AS EXACT ENTITLEMENTS.

SECTION II

PROPERTY TAXES AND MILL RATES IN 1970 AND 1974

PROPERTY TAXES AND MILL RATES
IN 1970 AND 1974

Total property taxes raised by municipalities and school boards grew from \$1,565 million in 1970 to an estimated \$1,935 million in 1974. This represented a 23 per cent increase over the period, or only 5.3 per cent per annum compounded. Furthermore, three quarters of this increase was accounted for by growth in the property tax base, the remaining quarter being attributable to increases in mill rates.

The property tax base grew at an average of 4 per cent per annum from 1970 to 1974, or about 17 per cent over the period. This represents real growth, in the form of new housing and commercial structures, rather than changes in the value of realty. In anticipation of comprehensive property tax reform, few legislative changes which affected the property tax base were made between 1970 and 1974. The only significant changes occurred in respect of the treatment of certain types of businesses.

Residential and Farm Taxes in 1974

The estimated average residential and farm property tax burden in Ontario was \$420 per household in 1974. Per household taxes varied widely among municipalities, from a high of \$1,545 in the Village of Rockcliffe Park to a low of \$51 in the Township of Mattawan. There were 41 municipalities in Ontario which had average per household tax burdens over \$500, while 27 municipalities had burdens of less than \$100 per household.

Residential and farm taxes per household in Metropolitan Toronto averaged \$550, while in regional governments the comparable figure was \$440. Most municipalities with average per household taxes over \$500 were in these urban areas.

In counties, average per household taxes were \$320, while in districts the average was \$250. Of the 27 municipalities with average per household taxes of less than \$100, 21 were in Northern Ontario.

Mill Rate Changes

On average, total mill rates in Ontario rose 5 per cent between 1970 and 1974. Residential mill rates grew 4 per cent while commercial mill rates increased more than 6 per cent. Excluding over 95 municipalities which were reassessed and therefore do not have comparable mill rates, 42 per cent of all municipalities had decreases in total residential mill rates between 1970 and 1974 and 58 per cent had increases.

Increases in total mill rates were not uniform throughout the province. Residential total mill rates grew by an average of 6 per cent in Metro Toronto and regional government areas, while the increase in counties was 1.5 per cent. In districts, average total residential mill rates fell one-half of 1 per cent.

Within regional government areas, the highest average increase in mill rates of 15 per cent was in area municipalities with populations of less than 10,000. Within counties, cities and towns had average decreases of 2 per cent and 1 per cent respectively, while villages and townships recorded increases in average mill rates of 2 per cent and 5 per cent respectively. In districts, cities and towns together averaged mill rate decreases of 5 per cent, while villages, townships and improvement districts had average increases of 15 per cent. In Northern Ontario, the largest increases in mill rates came in municipalities with fewer than 1,000 people. The average increase in these municipalities was 25 per cent.

Within the province as a whole, total residential mill rates in municipalities with less than 1,000 population grew 14 per cent between 1970 and 1974, compared with the provincial average

increase of 4 per cent. However, the average level of mill rates in these small municipalities was still 25 per cent below the provincial average in 1974.

The following table shows the average estimated residential and farm taxes per household for 1974 as well as the percent change in residential and farm mill rates in 1974 over 1970. Explanatory notes follow the table.

EXPLANATORY NOTES TO PREVIOUS TABLE

Residential and Farm Taxation Per Household

- . Details of residential and farm taxation per household in 1974 have been estimated since actual figures will not be available until municipalities' financial reports for 1974 are completed.
- . Taxes per household include taxes on all properties eligible for taxation at the residential mill rate, such as conservation areas, vacant land, vacant commercial and industrial realty and a number of other non-residential properties.

Changes in Mill Rates 1970-74

- . The percentage changes shown are the changes in total residential mill rates of public school supporters.
- . The 1970 mill rates were obtained from the financial reports of municipalities, while 1974 mill rates came from tax levy data supplied by municipalities.
- . Many municipalities have more than one total mill rate because of municipal restructuring and/or special area rating; the mill rate changes shown in the table are those which apply to the bulk of property supporting public schools in any municipality.
- . In restructured municipalities the change in mill rates shown is that which applies to properties in the largest merged area; where there is special area rating, the special mill rates are only included in total mill rates if they apply to over 80 per cent of the total assessment of the municipality.

- . No comparable mill rate figures are available for more than 95 municipalities which were reassessed between 1970 and 1974.
- . In municipalities which do not have public school mill rates, the changes in mill rates shown in the table are for separate school supporters.

SECTION III

ONTARIO'S PROPERTY TAX RELIEF PROGRAMS
1970 AND 1973

ONTARIO'S PROPERTY TAX RELIEF PROGRAMS

1970 AND 1973

The origin of Ontario's programs to neutralize the negative effects of property taxation was the Report of the Ontario Committee on Taxation (Smith Report). It recommended measures to alleviate the burden of property taxes. By 1970, the Ontario Government had implemented three major tax relief programs.

1. Under the Residential Property Tax Reduction program introduced in 1968, the Province compensated local governments for elimination of the property taxes on the first \$2,000 of equalized assessment on each residence.

2. Under a supplementary benefits program, the Province paid an additional \$50-\$100 to each low income pensioner household in Ontario.

3. Beginning in 1970, farmers were rebated 25 per cent of their farm property taxes in recognition of the land intensive nature of their operations.

These three programs successfully reduced residential property tax burdens in general and were of particular benefit to farmers and to elderly citizens. In 1970 these Provincial programs delivered \$172 million in property tax relief.

In order to more closely tie property tax relief to ability-to-pay, Ontario introduced a system of property tax credits in 1972. This tax credit system, which operates within the framework of the national income tax system, has since been adopted by several other Provinces.

Ontario's 1972 tax credit system provided for each household a credit against income tax equal to \$90, plus 10 per cent of property taxes, less 1 per cent of taxable income. This system was a great improvement over the Residential Property Tax Reduction program.

- . it concentrated assistance among lower income taxpayers through the income offset feature and restricted tax relief to principal residences.
- . it benefited tenants and lodgers as well as homeowners.
- . it saved administrative costs by channelling tax credits through the existing income tax administration.

The success of the property tax credit system encouraged Ontario to make further use of tax credits. In 1973, the Pensioner Tax Credit was introduced. This provided an additional tax credit of \$100 for all persons over 65 years of age. In addition, the sales tax credit was incorporated into the tax credit formula for the 1973 taxation year.

Ontario's 1973 tax credit system delivered total benefits of \$305 million of which more than \$250 million went to relieve property tax burdens. In 1974, the tax credit system was further enriched to a total of \$375 million by increasing the basic credit to \$180 and the pensioner credit to \$110.

In 1973 the rebate of property taxes on farms was doubled to 50 per cent. This is the equivalent of complete exemption of all farm land from property taxation.

The following table shows the distribution of the various property tax relief measures for 1970 and 1973 by county and by selected urban areas. Explanatory notes follow the table.

<u>Upper Tier</u>	1970		1973	
	Farm Tax	Shelter	Farm Tax	Property Tax

EXPLANATORY NOTES TO PREVIOUS TABLE

Farm Tax Rebates

- . Ontario makes rebates to farmers for a proportion of property taxes paid on their farms under the Farm Tax Reduction Program.
- . The rebates were set at 25 per cent of total property taxes when the program was introduced in 1970, and this rate was increased to 50 per cent in 1973.

1970 Shelter Grants

- . These figures include all payments under the Residential Property Tax Reduction Act, including \$50-\$100 supplementary payments to the elderly.

1973 Property Tax Credits

- . These figures include property tax credits and pensioner tax credits as well as transfers to the elderly under the Ontario Pensioner Assistance Program.

1976 FINANCIAL ASSISTANCE TO LOCAL GOVERNMENT

Assistance and Restraint

At the time of the 1975 Ontario budget, an overview was provided of Provincial assistance during the previous five years. This overview made it quite clear that Ontario's comprehensive approach to property tax relief had provided a substantial reduction in the real burden of property taxes.

The 1975 budget itself contained a strong Ontario program to provide leadership in public sector restraint. It also emphatically called for comparable restraints in the local government sector. This was critical for two important fiscal reasons. One, through the Edmonton Commitment, Ontario has dedicated the maximum resources it can afford to assist local governments. Two, if the gains made in reducing property tax burdens are not to be eroded during an inflationary period, local governments would have to engage in stringent cost cutting. In the July 7, 1975 mini-budget, involving yet more severe restraints on the part of the Ontario Government, these messages were forcefully repeated.

Nevertheless, by late 1975, it had become obvious that Provincial assistance payments for 1975-76 were far outpacing the target levels under the Edmonton Commitment, leading to unexpected pressures on Provincial finances.

The Province decided early in its budgetary planning phase to further tighten its restraint policies by targeting for no more than ten per cent growth in total Provincial spending in 1976-77. During December 1975, both the Legislature and the Provincial-Municipal Liaison Committee (PMLC) were advised of the Province's all-out attack on inflation and government spending.

As part of this 1976 Provincial approach, the PMLC was informed that the Province would adhere strictly to the Edmonton Commitment. For 1976, the Province would not completely recoup past overpayments under this Commitment, but, at the same time, would take all necessary steps to prevent an overrun during 1976. The latter meant that the open-ended features of existing cost-sharing programs would be eliminated and that growth ceilings would be applied to major conditional grant programs. In aggregate, Provincial transfer payments to local governments would be allowed to rise by no more than about eight per cent over the excessive level of 1975-76.

<u>TOTAL FINANCIAL TRANSFERS - 1976-77</u>		
(\$ million)		
		<u>% Increase over 1975-76</u>
Education	1,715	8.9
Transportation, Transit	460	6.0
Social Assistance	194	7.8
Other Conditional	<u>109</u>	3.8
Total Conditional Grants	2,478	8.0
Total Unconditional Grants	372	7.8
Payments to Local Agencies	<u>250</u>	<u>5.9</u>
Basic Financial Transfers	3,100	7.8

The Municipal Liaison Committee indicated that a ten per cent average growth rate in spending for the municipal sector was probably realistic and made it its own target. A recent survey taken by the Province supports the scope for curtailment of local spending. It also indicates that the ten per cent average growth rate for spending in the municipal sector is an achievable target. Of course, growth rates for individual municipalities will inevitably range over a wide spectrum around this average on account of large variations in local situations. Highlights of this survey are contained in the table on the next page.

For years, municipalities have requested early disclosure of Provincial grant policies for the year ahead to assist them in their budgeting process. Given the urgent need for restraint at all levels of government and the Province's restrictive fiscal stance for 1976, it was decided to provide municipalities with all available grants details and the restraint message at the beginning of their fiscal year, rather than waiting for the Provincial budget. During January 1976, members of Cabinet travelled to every part of the province to announce to municipalities, school boards and local agencies the intentions of the Ontario Government for 1976. This early and comprehensive disclosure was unprecedented. It was designed to ensure a broader approach to restraint and to facilitate the budgeting by municipalities for 1976.

The data distributed during the January tour of the Ontario Cabinet were highly provisional and have changed considerably. In fact, data for 1974-75 were finalized only recently. However, the net result

ESTIMATED 1976 INCREASES
IN MUNICIPAL CURRENT EXPENDITURE

<u>Municipality</u>	<u>Percentage Increase</u>
Sophiasburgh Township	0
Kingston Township	3.5

Durham Region	18.0

Note: Above increases are best estimates and relate
to own-account municipal spending only.

of all the changes since December 1975, has been modest and total transfers to the local sector are now expected to increase by about \$225 million in 1976-77, compared to an estimated \$230 million during the January tour. This change is particularly modest given the fact that actual 1975-76 transfers are now expected to run considerably above estimates of three months ago. Furthermore, the grants policies announced in detail during the past three months will not be modified but the total amount of transfers will exceed the level announced in January, 1976. In other words, in spite of the much increased net overpayments at the end of 1975-76, the Province will more than maintain its promised support level in 1976, while using the impact of tax increases to reduce the Province's deficit as well as the outstanding balance under the Edmonton Commitment.

The Edmonton Commitment

There has been some confusion in recent months concerning the Edmonton Commitment. It may be useful, therefore, to repeat this revenue-sharing commitment with local government as set out in the 1974 budget:

- . the Province will increase its transfers to local governments and agencies at the rate of growth of total Provincial revenue;
- . the Province will pass on to local governments the full benefit of any net gains in new unconditional tax sharing by the federal government; and,

- . the Province will give municipalities access to funds generated by the Ontario Municipal Employees Retirement System to permit better use of credit capacity.

Of the above three pledges only the second one has not been brought into practice. The federal government has as yet not chosen to redress the growing fiscal imbalance in Canada through new unconditional tax sharing. However, negotiations are currently underway between Ottawa and the provinces to decide on their fiscal arrangements for the next five years. Should the federal government refuse new tax sharing gains to the provinces, growth in Provincial assistance to local governments in Ontario will remain confined to the growth in Provincial revenue for another five years.

As mentioned previously, the data on the Edmonton Commitment, released in January 1976, have since undergone substantial changes. This is an inevitable consequence of early disclosure. Even the data in this document will be subject to considerable change until finalized. In respect of 1975-76 data, for instance, reliable finalization cannot be achieved until the fall of 1976. In other words, the Edmonton Commitment for the current and subsequent year can at all times only be based on the latest estimates, but never on unchangeably accurate information. With the elimination of open-ended features in many conditional grant programs, this aspect of the Commitment should no longer create unduly uneven patterns in assistance.

The latest estimates on the Edmonton Commitment are summarized in the next table. It incorporates the following major revisions from the data released in January, 1976:

- . recent tabling of the Public Accounts has allowed finalization of actual grants in 1974-75 revealing a further under-delivery of \$12 million;
- . a decline in the revenue growth rate for 1975-76, combined with a further increase in estimated 1975-76 grants, resulted in a net overpayment significantly higher than that previously estimated;
- . in view of the genuine need for additional assistance beyond that originally contemplated for certain social services, the Province further reduced its own spending to accommodate additional grants in 1976-77;
- . the impact of Provincial tax increases for 1976 raised the revenue growth rate and made it possible to reduce the net overpayment from its high level at the end of 1975-76.

EDMONTON COMMITMENT 1976-77
(\$ million)

	<u>1974-75</u>	<u>Estimated 1975-76</u>	<u>Estimated 1976-77</u>
Revenue Growth Rate	19.5%	9.9%	20.4%
Commitment	2,417	2,656	3,198
Actual Transfers	2,317	2,875	3,100
Actual Difference	- 100	+ 219	- 98
Cumulative Balance	- 100	+ 119	+ 21

In the absence of the Provincial tax increases for 1976, the net overpayment at the end of 1976-77 would have been much higher than in the above table. Given the Edmonton Commitment, local governments receive about 29.6 per cent of Provincial revenue. Of the total tax increase of \$330 million, therefore, about \$100 million is allocated to local governments. In other words, the tax increases reduce the balance after 1976-77 from \$119 million to the \$21 million shown in the table.

Transfers in Perspective

Another misunderstanding about Ontario's transfers to local government relates to both the level of assistance and the relative position of unconditional transfers compared to other provinces, notably Manitoba. In 1976-77, the total level of assistance to local government will reach \$3.1 billion, or \$382 per capita. In addition - but not measured under the Edmonton Commitment - the Province transfers at least another \$40 per capita, mostly in respect of the teachers' superannuation fund. It is unlikely that this level of assistance is matched or bettered anywhere. Much concern is also expressed about the lack of local autonomy in priority setting unless transfers are unconditional. Yet, for several years now, Ontario has been placing increased emphasis on unconditional grants, where in 1976 the level of unconditional grants will be almost \$46 per capita - higher than anywhere else in Canada and the equivalence of about five points of the personal income tax. (As recently as 1972, unconditional grants in Ontario were only \$10 per

capita.) This emphasis is expected to increase considerably. With the removal of open-ended features in conditional grants and through further deconditionalization, the scope for major increases in unconditional assistance will be sizeable.

Also, Ontario's unconditional grants have moved a long way from being merely a fixed transfer per capita. Its unconditional grants are sensitive to a host of factors, such as tax base deficiencies, tax effort, differential needs arising between North and South and arising between municipalities with and without policing costs. Obviously in this area no advantages are to be gained by assigning to local government a limited number of tax points and then to transfer these funds in the form of per capita grants.

The Unconditional Grants Package

This document is primarily geared to the provision of details on the unconditional grants policies for the new fiscal year and the grants population of municipalities to be used for a number of grant programs. For 1976, there are no major changes in any of the unconditional grant programs from the 1975 package. However, as a result of the natural growth rate of the General Support Grant, the Northern Ontario Special Support Grant, and the Resource Equalization Grant, total unconditional grants will increase by \$27 million to \$372 million in 1976-77.

A detailed description of all the unconditional grant programs is provided in the next section. Following that section, there is a complete listing of all municipalities showing their 1976 grant populations and their estimated entitlements to unconditional grants. The following table contains a two-year summary of the total package:

UNCONDITIONAL GRANTS, 1975-76 AND 1976-77
(\$ million)

	<u>1975-76</u>	<u>1976-77</u>	<u>% Increase</u>
General Support Grant	78.5	96.0	22.3

DETAILS OF THE

1976

UNCONDITIONAL GRANTS PROGRAM

DETAILS OF THE 1976 UNCONDITIONAL GRANTS PROGRAM

The following description of 1976 unconditional grants will enable municipal officials to make a reasonable estimate of their municipalities' grant entitlements in 1976. For their guidance, the attached table contains estimates for the aggregate unconditional grants to each municipality.

Per Capita Grants - General

The schedule for this grant will remain identical to the 1975 schedule, but will apply to the updated 1976 grants population. The latter is identified in the attached table.

GENERAL PER CAPITA GRANTS -- 1976 SCHEDULE

<u>Population Range</u>	<u>Rate of Grant</u>
0 - 5,000	\$6.00 x (Pop.)
5,001 - 10,000	\$ 30,000 + \$6.40 x (Pop. over 5,000)
10,001 - 15,000	\$ 62,000 + \$6.60 x (Pop. over 10,000)
15,001 - 20,000	\$ 95,000 + \$6.80 x (Pop. over 15,000)
20,001 - 25,000	\$ 129,000 + \$7.00 x (Pop. over 20,000)
25,001 - 50,000	\$ 164,000 + \$7.20 x (Pop. over 25,000)
50,001 - 75,000	\$ 344,000 + \$7.40 x (Pop. over 50,000)
75,001 - 100,000	\$ 529,000 + \$7.60 x (Pop. over 75,000)
100,001 - 200,000	\$ 719,000 + \$7.80 x (Pop. over 100,000)
200,001 or more	\$1,499,000 + \$8.00 x (Pop. over 200,000)
Regions	\$9.00

Per Capita Grant - Policing

- . The unconditional grant to municipalities where a local police force exists will remain at \$8.00 per capita.
- . The grant to municipalities where a regional police force exists will remain at \$12.00 per capita.
- . These grants will be determined on the basis of population data set out in the attached table.

Resource Equalization Grant

The Resource Equalization Grant is designed to reinforce the fiscal capacity of municipalities with below-average tax bases and generate more equity in Ontario's total grant structure. In keeping with this objective, the 1976 formula will be adjusted as follows:

- . The standard has been raised from \$10,300 to \$10,400 to reflect the increase in the average per capita equalized assessment in the province. As a result, relative assessment deficiency will be the amount by which a municipality's per capita equalized assessment falls below the standard of \$10,400, divided by \$10,400.
- . The maximum grant rate will be 25 per cent of the 1975 net general dollar levy; however, in situations involving former mining municipalities that are unduly constrained by the 25 per cent limit, the maximum will be increased to include 15 per cent of their 1972 formula mining revenue payments. This latter provision will terminate in 1977.

General Support Grant

This grant recognizes the inability of property tax revenues to keep pace with the rapidly increasing financial requirements of municipalities, especially during periods of strong inflation. The grant rate for all municipalities will be equal to six per cent of their 1975 net general dollar levies. The 95 per cent guarantee applicable in 1975 is terminated.

Northern Ontario Special Support Grant

Each municipality in the Northern part of the Province will continue to receive an additional payment equal to 15 per cent of its 1975 net general dollar levy. The definition of Northern Ontario for purposes of this grant remains as in 1975.

District of Parry Sound Support Grant

Municipalities located in the District of Parry Sound will continue to receive an additional payment equal to 7.5 per cent of their 1975 net general dollar levies.

Municipal Grants Population

The calculation of 1976 Municipal Grants Population, published in the accompanying table, is as follows:

- . the 1975 population as determined under Sections 23 and 23(a) of The Assessment Act; plus
- . a deemed temporary population equal to one-third the number by which the above population falls below the product of 2.5 times the number of households in 1974;
- . if the 1975 grants population was set equal to 95 per cent of the 1973 grants population, the 1976 grants population will be subject to a minimum of 90 per cent of 1973 grants population;
- . where the 1975 grants population was set equal to 130 per cent of the 1973 grants population, there will be no such limitation on the 1976 grants population;
- . where a military base exists within a municipality, the 1976 grants population will be the 1975 non-base population as determined in accordance with Sections 23 and 23(a) of The Assessment Act, plus the above adjustment for seasonal residents, plus one-third of the 1975 assessed population residing on the military base.

SECTION III

ESTIMATED 1976 UNCONDITIONAL GRANTS

AND 1976 GRANTS POPULATION

ESTIMATED 1976 UNCONDITIONAL GRANTS

AND 1976 GRANTS POPULATION

The 1976 grant figures in the following table are intended solely as a guide to municipalities in their budgetary process. The grants incorporated in the figures are: general per capita, policing per capita, resource equalization, general support and special support grants.

With the exception of population, several components in the grant calculations are estimated. In addition, several of these estimates are based upon unaudited, forecast information supplied by municipalities. Accordingly, THE GRANT FIGURES SHOULD NOT BE INTERPRETED AS EXACT ENTITLEMENTS. Local treasurers have already received the appropriate documentation to enable them to determine a more precise estimate of 1976 unconditional transfers.

TOTAL FINANCIAL ASSISTANCE	1,080	3,419	15.5
TOTAL PROVINCIAL REVENUE	4,401	11,983	13.4

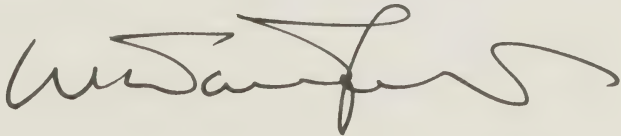

Preface

On September 10, 1976, I announced the Government's intentions in respect of transfers to local governments during 1977-78. Never before were local governments advised at such an early time about the financial assistance they could expect from the Province in the year ahead. As a result, municipalities and school boards were able to do their budgeting for 1977 with much greater certainty about their fiscal circumstances. I was happy to note that this Provincial initiative was well received by local councils, boards, and treasurers. By and large, I am happy with the experiment and I expect that we will continue to provide local government with early indications for their financial assistance in the following year.

In this document, you will find a complete update on all the information published last September and several changes since then. In particular, I had to advise municipalities recently that the main parameter for the resource equalization grant would be raised above the level announced last September, on the basis of more accurate information gathered since then. The new information reflects the inevitable changes in data on assistance for prior years and the impact on the Province's Revenue-Sharing Commitment. It confirms, in modified form, the distribution of total assistance during the 1977-78 fiscal year.

This document also contains the traditional details of changes to the various unconditional grants. In addition, there is a section describing a number of significant changes to conditional grant programs.

I am pleased to make this publication available to all Members of the Legislature, to all our local governments, and anyone else who is interested in developments in the Province's assistance to local government.

A handwritten signature in black ink, appearing to read 'W. Darcy McKeough', with a stylized, flowing script.

W. Darcy McKeough
Treasurer of Ontario.

1977 Financial Assistance to Local Government

Introduction

This document is divided into a number of sections and tables. Section I provides the reader with a bird's-eye view of fiscal developments in the local government sector during 1976, relative to previous years. Section II contains an up-to-date picture and description of the Government's Revenue-Sharing Commitment. Section III describes the details of all the individual unconditional grant programs in 1977. Section IV provides capsular descriptions of a number of meaningful changes to existing conditional grant programs.

This year, there are three tables displaying various interesting facts pertaining to individual municipalities. Table I shows the grants population for 1977, by municipality, and the Province's best estimate of entitlements to total unconditional grants. Table II compares entitlements to unconditional grants between 1974 and 1977. Generally, these data show a healthy increase, but in a number of cases declines will occur, mostly because individual municipalities have improved their relative assessment base and experienced a decline in their resource equalization grant. Finally, Table III compares residential and farm property taxes on a per household basis between 1970 and 1976. The latter are for both school and general municipal purposes.

Section I

The Performance of Local Government in 1976

Following an excessive growth rate in local spending of 21 per cent during 1975, the combined spending of local governments in 1976 rose by a more modest 11.5 per cent to a total of \$7.1 billion. Even then, this implies a compound average growth rate for the two years of 16 per cent. Obviously, further restraint into 1977 is required to reduce the strong influence of 1975 developments. Nevertheless, local restraint in 1976 was an encouraging response to the Province's concern to bring the government sector under control.

The marked reduction in 1976 local spending growth can be attributed to three factors:

- a municipal and, to a lesser degree, school board response to the Province's request to restrain spending, and Provincial action to limit local capital undertakings;
- the impact of the Anti-Inflation Program on wages and salaries in the local sector; and,
- the elimination of open-ended features of Provincial grant programs and their slower, more controlled growth in 1976.

Yet, the following table clearly illustrates that the improved 1976 performance of the local sector was attributable primarily to greatly reduced growth in capital spending generally and slower growth in current spending by the municipalities. Given the fact of

declining enrolment in the school system, growth rates for current spending by school boards of 18 per cent in 1975 and 16 per cent in 1976 are, at best, disappointing, and also spoil the overall result to a fair degree. The latter is explained, in part, by a number of major salary awards negotiated by teachers before the Anti-Inflation Program came into effect. From this, it could be expected that 1977 school board spending should slow down considerably from the past two years.

Closer examination of the municipal sector suggests that the 1976 slow-down affected all spending areas. The main cutbacks in growth rate occurred in a number of non-essential services: growth in recreation spending dropped from 28 per cent in 1975 to only 6 per cent in 1976; for planning, it dropped from an unusual 42 per cent to 13 per cent in 1976; municipal contributions to transit rose 39 per cent in 1975, but dropped to an increase of only 5 per cent in 1976, primarily due to fare increases. Relatively high increases occurred in more essential spending areas such as health and environment. Spending on social services was moderated by relatively low growth in caseloads, partly as a result of stricter application of eligibility criteria. A 1976 increase of 14 per cent in general government (mainly administration) is in sharp contrast to developments at the Provincial level. Local administration costs would certainly deserve special attention in 1977.

The most dramatic changes in local revenue were the reduced growth in Provincial grants and the fact that school boards responded less to restraint than municipalities. The fallout of the latter was a rather hefty 25 per cent increase in property tax revenue for school board purposes, considerably more than in the previous year. On average, total property tax revenue rose by 17.7 per cent, involving an increase in mill rates of approximately 13.5 per cent, or close to the increase experienced in 1975. This considerable increase in local taxation occurred in spite of the partial use of accumulated surplus funds in the system.

Local Government Revenue, 1975 and 1976

(\$ million)

	1975	1976	1975 1974	1976 1975
			(%)	(%)
<i>Taxation</i>				
Municipalities	1,313	1,466	19.1	11.7

Total Revenue	5,855	6,496	21.9	10.9

The following table indicates the impact of 1976 mill rate increases on the average individual property taxpayer. The average householder experienced an increase in property taxes, including special charges, from \$439 in 1975 to \$499 in 1976, or 13.7 per cent. This average burden was almost evenly split between school board and municipal requirements, the latter holding a small edge. Ignoring the beneficial impact of a number of Provincial property tax relief programs, the 1976 average property tax represents 2.5 per cent of average household income, a slight increase over 1975. Clearly, further local spending restraint is required if the burden of property taxes is to stay within present levels.

Average Residential Property Taxes per Household, 1970 to 1976

	1970	1972	1974	1975	1976	1976**	1976

As % of household income	3.2	2.8	2.4	2.4	2.5		

*Including special charges.

**Compound annual growth rate.

Finally, a review of 1976 local long-term borrowing shows some unusual developments. In spite of a very modest increase in 1976 capital spending, long-term borrowing by local governments rose almost 36 per cent to a total of \$575 million. This \$150 million increase in municipal borrowing during 1976 was due to the state of financial markets in 1975 and 1976. During 1975, interest rates were at an all-time high. As a consequence, municipalities financed \$100 million more capital spending out of short-term borrowing in 1975 than in 1976. Moreover, with the decline in interest rates during 1976, municipalities converted \$50 million more of short-term borrowing into long-term debentures than in 1975.

New Long-Term Borrowing, 1975 and 1976

Section II

Provincial-Local Revenue Sharing

As was to be expected, virtually all factors playing a role in the "Edmonton Commitment" have changed since the September 10, 1976, presentation, when local governments were given a preview of 1977-78 transfer intentions. Most of the relevant changes occurred in respect of the 1976-77 and 1977-78 fiscal years.

The elimination of open-ended cost-sharing arrangements, combined with the Province's request for restraint, resulted in a lower level of actual transfer payments during 1976-77 than expected. At the same time, the Province's 1976-77 revenue growth rate turned out much below expectations, reducing the value of the Commitment as well.

The 1977-78 Provincial revenue forecast is only slightly higher than projected six months ago. Actual transfers during 1976-77, shown in the accompanying table, include some \$69 million in 1977 per capita unconditional grants, payment of which was advanced by several weeks to enhance cash flow to the municipalities and offset to some degree the lower 1976-77 grants delivery. These early payments remain part of the total grants municipalities expected to receive in their 1977 fiscal year, following last September's announcement.

Edmonton Commitment
(\$ million)

	Base Year 1973-74	1974-75	1975-76	Interim 1976-77	Estimated 1977-78	Cumulative 1974-77
Budgetary Revenue	6,844	8,176	9,010	10,567	11,983	39,736
Revenue Growth Rate (%)	—	19.5	10.2	17.3	13.4	—
Commitment Level	2,026	2,421	2,668	3,130	3,549	11,768
Actual Transfers	2,026	2,322	2,880	3,108	3,350	11,660
Actual Difference	Nil	-99	+212	-22	-199	-108
Cumulative Balance	Nil	-99	+113	+91	-108	

Allowing for the lower level of grants in 1976-77 and the prepayment of part of the per capita grants, the 1977-78 increase in grants to local governments should approximate 12.5 per cent. At the same time, as shown in the table, local government will enter 1978-79 with a cushion of about \$100 million in entitlements, which may prove significant given the Province's revenue expectations for the 1978-79 fiscal year. (See Budget Paper C, Table 7.)

The revised Provincial revenue projections incorporate the new fiscal arrangements between the federal and provincial governments. The new arrangements embody a reasonable compromise between two extreme preferences, but, as expected, they also involve a net deterioration for the provinces from previous years, primarily because of the discontinuation of the Revenue Guarantee. In fact, the 1977 federal budget's tax measures will also affect the Province's income tax revenue adversely without the benefit of guarantees.

The distribution of total 1977-78 assistance to local governments does not differ much from the tentative distribution indicated seven months ago. The following table provides an overview only, while greater detail can be found in Table C9 of Budget Paper C. To make more realistic comparisons, the \$69 million in early payments of per capita grants are included.

Total Financial Transfers, 1977-78

(\$ million)

	1977-78	% Increase over 1976-77
Education	1,880	10.9
Transportation, Transit	509	14.9
Social Assistance	188	9.3
Other Conditional	126	26.0
Total Conditional Grants	2,703	12.2
Total Unconditional Grants	436	17.8
Payments to Local Agencies	280	8.1
Basic Financial Transfers	3,419	12.5

The following two sections contain details on formula changes to unconditional and conditional grants respectively. The emphasis of this document, however, remains on the unconditional grants. The first major table in the back shows the usual listing of grants population and *estimated* unconditional grants entitlements for each municipality. A brief summation of the unconditional grants is shown in the next table.

Unconditional Grants, 1976 and 1977

(\$ million)

	1976	1977	% Increase
General Support Grant	96.7	112.0	15.8

Per Capita Grant—General	65.6	75.0	14.3
Per Capita Grant—Density	5.5	5.5	—
Other	19.4	22.0	13.4
Total	370.1	436.0	17.8

Section III

Details of the 1977 Unconditional Grant Programs

The following description of 1977 unconditional grants will enable municipal officials to make a reasonable estimate of their municipalities' grant entitlements in 1977. For their guidance, Table I contains *estimates* for the aggregate unconditional grants to each municipality.

Per Capita Grant—General

Compared to 1976, the per capita grant schedule has been increased by one dollar throughout its range. The actual grant for any municipality may be determined from the following new schedule using the 1977 grants population figure indicated in Table I.

General Per Capita Grant, 1977 Schedule

Population Range	Rate of Grant
0- 5,000	$\$7.00 \times (\text{Pop.})$
5,001- 10,000	$\$35,000 + \$7.40 \times (\text{Pop. over } 5,000)$
10,001- 15,000	$\$72,000 + \$7.60 \times (\text{Pop. over } 10,000)$
15,001- 20,000	$\$110,000 + \$7.80 \times (\text{Pop. over } 15,000)$
20,001- 25,000	$\$149,000 + \$8.00 \times (\text{Pop. over } 20,000)$
25,001- 50,000	$\$189,000 + \$8.20 \times (\text{Pop. over } 25,000)$
50,001- 75,000	$\$394,000 + \$8.40 \times (\text{Pop. over } 50,000)$
75,001-100,000	$\$604,000 + \$8.60 \times (\text{Pop. over } 75,000)$
100,001-200,000	$\$819,000 + \$8.80 \times (\text{Pop. over } 100,000)$
200,001 or more	$\$1,699,000 + \$9.00 \times (\text{Pop. over } 200,000)$
Regions	\$10.00

Per Capita Grant—Policing

- The unconditional grant to municipalities where a local police force exists will be enriched from \$8.00 to \$10.00 per capita.
- The grant to municipalities where a regional police force exists will increase from \$12.00 to \$15.00 per capita.
- These grants will be determined on the basis of population data set out in Table I.

Per Capita Grant—Density

- The schedule of grant rates remains unchanged.
- The grant will be determined on the basis of population data set out in Table I.

Resource Equalization Grant

The Resource Equalization Grant is designed to reinforce the fiscal capacity of municipalities with below-average tax bases and to generate more equity in Ontario's total

grant structure. In keeping with this objective, the 1976 formula will be adjusted as follows:

- The standard has been raised from \$10,400 to \$10,650 to reflect the increase in the average per capita equalized assessment in the province. As a result, relative assessment deficiency will be the amount by which a municipality's per capita equalized assessment falls below the standard of \$10,650, divided by \$10,650.
- The maximum grant for all municipalities will be 25 per cent of 1976 net general dollar levies.

General Support Grant

This grant attempts to alleviate the problem of fiscal imbalance at the local level which confronts both resource-poor and resource-rich municipalities. The grant for all municipalities will be equal to 6 per cent of 1976 net general dollar levies.

Northern Ontario Special Support Grant

The special grant to municipalities in the northern part of the province will be enriched from 15 per cent to 18 per cent of net general dollar levies. The definition of Northern Ontario for the purposes of this grant remains as in 1976.

District of Parry Sound Support Grant

The special grant to municipalities located in the District of Parry Sound will also be increased by 20 per cent, from a rate of 7.5 per cent in 1976 to 9 per cent in 1977. The higher grant rate will be applied to 1976 net general dollar levies.

Net General Dollar Levy

The net general dollar levy for 1977 resource equalization and support grant purposes will include the prepayment and commutation of 1976 special charges.

Municipal Grants Population

The 1977 Municipal Grants Population, published in Table I, is determined as follows:

- the 1976 population, excluding population living on a military base, as determined under Sections 23 and 23(a) of *The Assessment Act*; plus
- a deemed temporary population equal to one-third the number by which the above population falls below the product of 2.5 times the number of non-military households in 1976; plus
- the residents of military bases which are not designated as self-contained; plus
- one-third of the residents of a self-contained military base. (Self-contained bases are those designated by the Department of National Defence, which at present are the bases in Essa Township, Opasatika Improvement District, Petawawa Township, Petawawa Village, Pittsburgh Township, Sidney Township, Tosorontio Township, and the Town of Valley East.)

Section IV

Changes to Conditional Grant Programs

Grants to Public Libraries

- In 1977, the grant to local, county, and Indian Band library boards will increase from \$1.70 to \$1.80 per capita (the basic grant to a county board remains at \$15,000).
- Where county library boards do not exist, the \$15,000 basic grant will be paid to the relevant regional library boards to provide integrated service arrangements within those counties and encourage the creation of county boards.
- The grant for regional library systems will rise from 55¢ to 60¢ per capita; the territorial component will increase from \$3.00 to \$4.00 per square mile, with a new maximum of \$300,000 (\$200,000 in 1976).
- A special payment of \$1.80 per capita, payable on the population in the municipally unorganized area served by a regional system, will be made available to northern regional library boards to encourage existing, or develop new library facilities.

Transit Operating Grants

- Effective January 1, 1977, transit operating grants will be based upon operating costs rather than operating deficits.
- The new formula encourages greater efficiencies in local transit systems.
- Municipalities are grouped by population size and, for each of the following population categories, revenue-cost ratio targets have been developed. The fixed rate of grant associated with each revenue-cost ratio target is based upon one-half of the percentage of total operating costs not financed out of operating revenues.
- A municipality's grant is calculated by applying the grant rate for the relevant population range to the total operating costs of the local transit system.

Transit Operating Grants, 1977

Population	Target for Revenues as a % of Total Operating Cost	Subsidy as % of Operating Cost
	(%)	(%)
0- 100,000	50.00	25.00
100,000- 150,000	55.00	22.50
150,000- 200,000	60.00	20.00
200,000-1,000,000	65.00	17.50
over 1,000,000	72.50	13.75

- In effect, a municipality which achieves the revenue-cost target applicable to its population range will receive a grant equivalent to 50% of its operating deficit; if a municipality does not attain the target level, the grant will be less than 50% of its deficit, while a municipality exceeding the target level will receive a grant greater than 50% of its deficit subject to a maximum of 75%.
- For the initial year only, no municipality will receive a lower grant than that paid in the previous year (1976).
- Additional assistance will be available to those municipalities either experiencing rapid population growth for which additional services are necessary, or introducing new major transit facilities.

Municipal Airport Maintenance Grants

- Effective January 1, 1977, the Province will provide grants to municipalities for maintenance expenditures on local airports.
- The grant will be available initially for those local airports located in Northern Ontario and the District of Parry Sound which are eligible for airport construction subsidies from the Ministry of Transportation and Communications.
- The grant will be equal to 50% of eligible municipal expenditure for airport maintenance subject to:
 - (1) a ceiling of \$25,000 per annum for municipalities with class 2 (regularly scheduled) service operating at least 3 days a week; or,
 - (2) a ceiling of \$10,000 per annum for municipalities without class 2 service and spending in excess of \$5,000 for airport maintenance.

Private Sewerage Inspections

- Commencing in 1977, Provincial support towards inspection of proposed private sanitary systems by local health agencies will be funded entirely by the Ministry of the Environment. The cost-sharing arrangements between the Province and the individual applying for system approval will be as follows, effective March 26:

Severances and Subdivisions without Sewer Services	\$25.00 grant
For Certificates of Approval Issued	{ \$30.00 fee
For Certificates of Approval Rejected	{ \$30.50 grant
	\$60.50 grant

- If the inspection of proposed systems requires travel in excess of 20 miles from the health agency office, additional assistance to the local health agency is available at the rate of \$10.00 per application.
- For approved private sewerage systems of more than 4,500 litres daily capacity, the fee is \$80.00 and the basic grant is \$41.00.

Venereal Disease Control

- Provincial support to venereal disease clinics operated by local health agencies will increase by 50% in 1977, from \$5.00 to \$7.50 per patient treated.

1977 General Legislative Grants

- The maximum ordinary expenditure per pupil which is recognized for grant purposes will be:
 - \$1,197 for each elementary school pupil (an increase of 10.8% over 1976); and
 - \$1,712 for each secondary school pupil (an increase of 10% over 1976).
- These basic grant ceilings are adjusted by grant weighting factors.
- A school board with an average assessment base receives a support level of 60% for elementary school purposes and 54% for secondary school purposes of its recognized ordinary expenditure (the same support rates applicable in 1976).
- There are two grant rates in 1977 for recognized extraordinary expenditure to account for high transportation needs and/or high levels of debt charges. These grant rates are 75% and 95% for a school board of average wealth. The higher rate applies to recognized extraordinary expenditure for transportation and debentures in excess of \$172 per weighted elementary school pupil and \$184 per weighted secondary school pupil. (Only the 75% support rate was applicable in 1976.)
- The average equalized assessment per pupil for grant purposes will be:
 - \$64,200 for an elementary school pupil (an increase of 4.6% over 1976); and
 - \$136,700 for a secondary school pupil (an increase of 1.9% over 1976).
- Incentive grants will be made available to elementary and secondary school boards to upgrade and expand French-language courses.

Local Museums

- Effective January 1, 1977, local museums will be eligible for additional Provincial assistance equal to 10% of net receipts in excess of \$60,000 per year, subject to a maximum of \$60,000.

Housing Action Program

- Approvals for funding under the Ontario Housing Action Program terminated as of March 31, 1977. The Province will continue to meet its commitments for funding on all undertakings approved prior to that date.

TABLE I

**ESTIMATED 1977 UNCONDITIONAL GRANTS
AND 1977 GRANTS POPULATION**

ESTIMATED 1977 UNCONDITIONAL GRANTS AND 1977 GRANTS POPULATION

The 1977 grant figures in the following table are intended solely as a guide to municipalities in their budgetary process. The grants incorporated in the figures are: general per capita, policing per capita, density element, resource equalization, general support and special support grants.

With the exception of population, several components in the grant calculations are estimated. In addition, several of these estimates are based upon unaudited, forecast information supplied by municipalities. Accordingly, *THE GRANT FIGURES SHOULD NOT BE INTERPRETED AS EXACT ENTITLEMENTS*. Local treasurers have already received the appropriate documentation to enable them to determine a more precise estimate of 1977 unconditional transfers.

TABLE II
TOTAL UNCONDITIONAL GRANTS
TO MUNICIPALITIES
1974 and 1977

TOTAL UNCONDITIONAL GRANTS
TO MUNICIPALITIES
1974 and 1977

This table indicates the growth in unconditional support to each lower-tier municipality between 1974 and 1977. Total unconditional grants, expressed on a per capita basis, include resource equalization, general support, special support, general per capita, policing per capita, and density element grants.

TABLE III
RESIDENTIAL AND FARM TAXATION
PER HOUSEHOLD
1970 and 1976

EXPLANATORY NOTES TO TABLE

- Residential and farm taxation per household includes taxes levied on residential, farm and all other properties eligible for taxation at the residential mill rate, including conservation areas, vacant land, and vacant commercial and industrial buildings.
- The figures include all taxes and special charges levied by lower tier municipalities for all municipal and school purposes. Special charges levied directly by upper tier municipalities are not included.
- The 1970 figures were taken from municipalities' 1970 financial reports. Where municipal restructurings took place between 1970 and 1976, the 1970 figures were reworked to reflect the present municipal boundaries. No adjustments were made for annexations of land between municipalities.
- The 1976 figures were estimated on the basis of 1976 mill rate by-law information supplied by municipal treasurers. Final 1976 data will not be available until municipal financial reports for 1976 are completed.

Preface

As I presented the 1978 Budget a full six weeks earlier than last year's budget, the publication of this document could not take place on the same day, as has been the custom. This postponement became necessary because complete data on which to estimate unconditional grants entitlements was not available in time. Nevertheless, I am pleased to provide the detailed information in this publication earlier than in previous years.

When, on September 16, 1977, I announced the Government's plans for the 1978-79 fiscal year in respect of transfers to local government, I provided considerable detail on our latest data for transfer programs. It was inevitable that, in the six months since then, some of these estimates would change. This document contains our latest estimates for broad program areas as well as the traditional details on unconditional grants with estimated entitlements for all municipalities.

I am pleased to make this publication available to all Members of the Legislature, to all our local governments, and anyone else who is interested in developments in the Province's assistance to local government.

A handwritten signature in dark ink, appearing to read 'W. Darcy McKeough', with a stylized, flowing script.

W. Darcy McKeough
Treasurer of Ontario

April 3, 1978

Section I

Overview of 1978-79 Provincial Transfers

The distribution of transfers for 1978-79 ultimately adopted in the 1978 Budget is very similar to the one announced on September 16, 1977. The aggregate is some \$16 million higher. The following table compares the September amounts with those contained in the budget. The table also shows the percentage growth of the final amounts over the previous fiscal year. For purposes of a more realistic comparison, the 1977-78 total for unconditional grants is assumed to include the \$69 million of 1977 unconditional grants which were paid at the end of the 1976-77 fiscal year. Ignoring this factor, and on the basis of the Province's fiscal year comparisons, the overall growth in transfers is 6.5 per cent. As can be readily determined from the table, the reduction in Teachers' Superannuation Fund contributions depresses the overall growth in transfers. However, total grants to municipalities and agencies are now expected to grow by over 8 per cent in 1978-79.

Total Financial Transfers, 1978-79
(\$ million)

	(1) September 1977 Data	(2) 1978 Budget	(3) % Increase of (2) over 1977-78
General Legislative Grants	1,970	1,970	+ 5.3
Teachers' Superannuation Fund	331	331	- 14.5
Transportation	513	513	+ 4.9
Social Assistance	200	202	+ 8.0
Other Conditional	198	217	+ 15.4
Unconditional	514	516	+ 9.6
Payments to Local Agencies	297	290	+ 8.2
Total Financial Transfers	4,023	4,039	+ 4.6

Finally, a table is provided displaying, for 1977 and 1978, the estimated payments of unconditional grants by individual programs.

Unconditional Transfers, 1977 and 1978
(\$ million)

	1977	1978	% Increase
General Support	111	133	+ 19.8
Resource Equalization	98	109	+ 11.2
Per Capita—Policing	92	93	+ 1.1
Per Capita—General	75	76	+ 1.3
Payments-in-lieu of Taxes	45	49	+ 8.9
Northern Ontario Support	31	35	+ 12.9
Other	19	21	+ 10.5
Total	471	516	+ 9.6

Section II

Details of the 1978 Unconditional Grant Programs

The following description of 1978 unconditional grants will assist municipal officials in calculating their municipalities' 1978 grant entitlements. For their guidance, Table II contains estimates for the aggregate unconditional grants to each municipality.

Per Capita Grant—General

The per capita grant schedule will remain unchanged. The actual grant for any municipality may be determined from the following schedule using the 1978 grants population figure indicated in Table II.

General Per Capita Grant, 1978 Schedule

Population Range	Rate of Grant
0– 5,000	\$7.00 × (Pop.)
5,001– 10,000	\$ 35,000 + \$7.40 × (Pop. over 5,000)
10,001– 15,000	\$ 72,000 + \$7.60 × (Pop. over 10,000)
15,001– 20,000	\$ 110,000 + \$7.80 × (Pop. over 15,000)
20,001– 25,000	\$ 149,000 + \$8.00 × (Pop. over 20,000)
25,001– 50,000	\$ 189,000 + \$8.20 × (Pop. over 25,000)
50,001– 75,000	\$ 394,000 + \$8.40 × (Pop. over 50,000)
75,001–100,000	\$ 604,000 + \$8.60 × (Pop. over 75,000)
100,001–200,000	\$ 819,000 + \$8.80 × (Pop. over 100,000)
200,001 or more	\$1,699,000 + \$9.00 × (Pop. over 200,000)
Regions	\$10.00

Per Capita Grant—Policing

- The unconditional grant to municipalities where a local police force exists will remain at \$10.00 per capita.
- The grant to municipalities where a regional police force exists will be maintained at \$15.00 per capita.
- These grants will be determined on the basis of population data set out in Table II.

Per Capita Grant—Density

- The schedule of grant rates remains unchanged.
- The grant rates are determined on the basis of the following density schedule where density is defined as the ratio of 1977 residential households to the acreage of an area municipality.

Density	Amount Per Capita
	(\$)
0.15 and under	5.00
over 0.15 to 0.30	4.00
over 0.30 to 0.45	3.00
over 0.45 to 0.60	2.00
over 0.60 to 0.75	1.00
over 0.75	nil

- The per capita amounts will be applied to the grants population data set out in Table II.

Resource Equalization Grant

The resource equalization grant is designed to reinforce the fiscal capacity of municipalities with below-average tax bases and to generate more equity in Ontario's total grant structure. The 1977 formula will be continued as follows:

- The standard will be maintained at \$10,650 per capita. As a result, relative assessment deficiency is the amount by which a municipality's per capita equalized assessment falls below the standard of \$10,650, divided by \$10,650.
- 60 per cent of the relative assessment deficiency will be recognized for grant purposes.
- The maximum grant will remain at 25 per cent of net general dollar levies.

General Support Grant

The grant for all municipalities will remain at 6 per cent of their net general dollar levies.

Northern Ontario Special Support Grant

The special grant to municipalities in the northern part of the province will continue to be 18 per cent of their net general dollar levies.

District of Parry Sound Support Grant

The special grant to municipalities located in the District of Parry Sound will be maintained at 18 per cent of their net general dollar levies.

Net General Dollar Levy

The net general dollar levy bases for resource equalization and support grants will be updated to 1977 and will be altered as follows:

- The net general dollar levy for determining a resource equalization grant to a lower-tier municipality will be adjusted
 - (a) to include total 1977 revenue from direct water billings on local ratepayers; and,
 - (b) to incorporate any 1977 revenue from direct water billings on local ratepayers by an upper-tier municipality.

- The net general dollar levy for support grants to a lower-tier municipality will be adjusted
 - (a) to exclude 1977 taxation in respect of upper-tier special purpose requisitions;
 - (b) to include any 1977 revenue from direct water billings on local ratepayers in respect of water services for which a lower-tier municipality is responsible; and,
 - (c) to incorporate any difference between 1977 retail and wholesale revenues in instances where an upper-tier municipality wholesales water service to a lower-tier municipality.
- The net general dollar levy for support grants to an upper-tier municipality will be revised
 - (a) to include 1977 special purpose requisitions; and,
 - (b) to incorporate 1977 water and sewerage retail revenues in circumstances where an upper-tier municipality bills local ratepayers directly.
- The change in surplus calculation will be eliminated in determining the net general dollar levy for both resource equalization and support grants.

Municipal Grants Population

The 1978 Municipal Grants Population, published in Table II, is determined as follows:

- the 1977 population, excluding population living on a military base, as determined under Sections 23 and 23(a) of *The Assessment Act*; plus
- a deemed temporary population equal to one-third the number by which the above population falls below the product of 2.5 times the number of non-military households in 1977; plus
- the residents of military bases which are not designated as self-contained; plus
- one-third of the residents of a self-contained military base. (Self-contained bases are those designated by the Department of National Defence, which at present are the bases in Essa Township, Opasatika Improvement District, Petawawa Township, Petawawa Village, Pittsburgh Township, Sidney Township, Tosorontio Township, Bosanquet Township and the Town of Valley East.)

Section III

Changes to Conditional Grant Programs

Grants to Conservation Authorities

- Effective January 1, 1977, conservation authority programs were grouped into 3 program areas: administration, water and related land management, and conservation and recreation land management.
- Effective January 1, 1978, grants to conservation authorities will be aligned with these program areas.
- Administration grants will remain unchanged at 50 per cent of eligible expenditure. Such expenditure will remain eligible for supplementary assistance.
- Supplementary grant rates will range from 5 to 30 per cent calculated at one per cent rather than five per cent increments. Total eligible program cost replaces the levy as the basis for calculation of supplementary grants.
- Water and related land management base grants will be enriched from 50 to 55 per cent of eligible expenditures. Eligibility for supplementary grants remains and effectively increases maximum support from 75 to 85 per cent of eligible expenditures. Full Provincial funding of eligible expenditures for capital development of dam and reservoir construction in excess of \$30,000, and the 75 per cent grant on eligible expenditure in respect of preliminary engineering, flood plain mapping and water control structure operations and maintenance, will be replaced with the base grant rate but will be eligible for supplementary assistance.
- Conservation and recreation land management grants for capital development remain unchanged at a rate of 50 per cent of eligible expenditure. Grants towards the acquisition of Niagara escarpment lands will be reduced from 75 to 50 per cent of eligible expenditure. In addition, supplementary assistance for this program area will be eliminated after a four-year phase-out period starting in 1978.

Private Sewerage Inspections

- Effective January 1, 1978, grants to local health agencies will be enriched as follows to compensate for the rising costs of environmental inspection activity:

	<i>From</i>	<i>To</i>
A. Small Systems:		
Certificates of	\$30 fee	\$30 fee
Approval Issued	\$30.50 grant	\$40.50 grant
Certificates of		
Approval Rejected	\$60.50 grant	\$70.50 grant
B. Large Systems:		
Certificates of	\$80 fee	\$80 fee
Approval Issued	\$41 grant	\$61 grant
Certificates of		
Approval Rejected	\$121 grant	\$141 grant
C. Lot Reviews for Subdivisions and Severances	\$25 grant	\$33 grant

- The present uniform grant of \$10 per application where the average distance from the nearest health unit office to all sites exceeds 20 miles will be replaced by a grant which varies with distance as follows:

Average Distance Between Nearest Health Unit Office and All Sites (Miles)	Mileage Grant Per Application
	(\$)
20–29.9	10
30–39.9	20
40–49.9	30
50 or more	40

- In addition to the above revisions new grants will be instituted to accommodate unique cost pressures facing some health agencies. Where necessary, a new supplementary grant will be paid to health agencies with a workload of less than one full man-year to compensate for relatively high administration costs. Also, a grant of \$33 will be available for secondary lot reviews for subdivisions and severances if additional inspection work is involved.
- Health agencies will be given the flexibility within specified limits to set fees appropriate to their individual circumstances.

1978 General Legislative Grants

Grant Ceilings

- The maximum ordinary expenditure per weighted pupil recognized for grant purposes will be:
 - (a) \$1,299 for each weighted elementary school pupil (an increase of 8.53 per cent over 1977); and,
 - (b) \$1,841 for each weighted secondary school pupil (an increase of 7.54 per cent over 1977).
- Grant weighting factors are applied to enrolment to reflect varying school board needs.

Mill Rate Equalization Plan

- A different method of calculating grants, the “mill rate equalization plan”, has been introduced in 1978.
- Under this plan ordinary grants are simply the residual between recognized ordinary expenditures and taxes. Taxes for recognized ordinary expenditure are determined by the yield of a common mill rate on a board’s equalized assessment.
- The common mill rates are established for boards spending at the grant ceilings. They are 7.986 and 6.119 for elementary and secondary boards, respectively.
- A similar approach has been taken with respect to recognized extraordinary expenditure which includes capital expenditures financed from the revenue fund, pupil transportation costs and debt charges.
- Under the previous grant structure, two basic grant rates would have been applied to recognized extraordinary expenditure. For a board of average wealth, the second grant rate of 95 per cent would apply to certain recognized extraordinary expenditure

in excess of \$172 per weighted elementary pupil and \$184 per weighted secondary pupil. The first grant rate of 75 per cent would apply to all residual recognized extraordinary expenditure.

- Recognized extraordinary expenditures attracting the second rate of grant exclude such items as net pupil accommodation charges, the costs of relocating portables, and debt charges paid for the first time since December 31, 1976.
- In effect the above grant rates apply for 1978 in determining the Province's share of recognized extraordinary expenditure; the board's remaining share is expressed as a common mill rate per \$100 of recognized spending. The derivation of common mill rates is shown below.

	1978 Assessment Per Pupil*	Board Share of \$100 Per Pupil		Common Mill Rate
	\$	%	\$	mills
First Level (75% Rate)				
Elementary	68,317	25	25	.366
Secondary	142,045	25	25	.176
Second Level (95% Rate)				
Elementary	68,317	5	5	.073
Secondary	142,045	5	5	.035

*Equalized assessment for a board of average wealth.

TABLE II
ESTIMATED 1978 UNCONDITIONAL GRANTS
AND 1978 GRANTS POPULATION

ESTIMATED 1978 UNCONDITIONAL GRANTS AND 1978 GRANTS POPULATION

The 1978 grants figures in the following table are intended solely as a guide to municipalities in their budgetary process. The grants incorporated in the figures are : general per capita, policing per capita, density element, resource equalization, general support and special support grants.

With the exception of population, several components in the grants calculations are estimated. In addition, several of these estimates are based upon unaudited, forecast information supplied by municipalities. Accordingly, **THE GRANTS FIGURES SHOULD NOT BE INTERPRETED AS EXACT ENTITLEMENTS**. Local treasurers have already received the appropriate documentation to enable them to determine a more precise estimate of 1978 unconditional transfers.

Preface

For a number of reasons, the Government was unable this year to provide early and complete details on its planned transfers to local governments as has been a tradition in recent years. We are confident, however, that sufficient detail had been disclosed early in 1979 to enable local governments to prepare their budgets with comparable certainty. This publication consolidates all this information and provides a detailed overview of the Government's estimates of total 1979-80 transfers to local governments.

We are encouraged by what we have seen so far in restrained local budget planning for 1979. Obviously, the local government sector shares our conviction about the critical need for government restraint in order to reallocate productive resources to the private sector and enhance the performance of our economy.

This document contains the usual details on unconditional grants with estimated entitlements to unconditional grants for all municipalities. It also provides the official grants population figures for all municipalities. The latter play a role in a number of the Province's grant programs.

We are pleased to make this publication available to all Members of the Legislature and to all municipal councils.

A handwritten signature in dark ink, reading "Thomas R. Wells." with a period at the end.

Minister of Intergovernmental Affairs

A handwritten signature in dark ink, reading "Miller" in a cursive style.

Treasurer of Ontario

April, 1979

Section I

Overview of 1979-80 Provincial Transfers

Last November the Treasurer of Ontario indicated to the Legislature that total 1979-80 transfer payments to the local sector would increase by five per cent over the aggregate 1978-79 level. This planned growth in Provincial transfers, based on the latest estimates for 1978-79 available at that time, placed the increase in support to the local sector on an equal footing with overall anticipated expenditure growth in the existing programs of Provincial ministries.

On December 8 the Minister of Intergovernmental Affairs elaborated to the Provincial-Municipal Liaison Committee on 1979-80 funding intentions and provided complete details on unconditional grants. While detail on some other programs was also provided, federal expenditure cuts outlined in the fall made it impossible to go much beyond broad highlights with any certainty. Since that time many outstanding issues emanating from the federal government's objectives have been resolved, and the impact of the cuts on Provincial programs has largely been clarified. Accordingly, individual ministries have been able to make their own statements on 1979-80 grants and, in some cases, on specific grant allocations. Sufficient information is currently available to allow municipalities to budget with reasonable accuracy in respect of Provincial transfers.

This is the first opportunity since December to publish a comprehensive overview of total transfer payments and their distribution. By way of advice to the Legislature and local councils, we take this opportunity to outline in detail our estimate of 1979-80 transfer payments. As can readily be seen in the following table, total transfers in 1979-80 will increase at a somewhat greater rate than that announced in November based on more refined estimates of 1978-79 activity and a small escalation in the 1979-80 target.

Section II

Details of the 1979 Unconditional Grants Program

The parameters and definitions incorporated in the determination of unconditional grants will remain essentially unchanged in 1979. The exception will be the revision to the standard per capita equalized assessment used in calculating 1979 resource equalization grant entitlements.

The following description of 1979 unconditional grants will assist municipal officials in calculating their municipalities' 1979 grant entitlements. For their guidance, the Appendix contains *estimates* for aggregate unconditional grants to each municipality.

Per Capita Grant—General

The per capita grant for any municipality may be determined from the following schedule using the 1979 grants population figure indicated in the Appendix.

General Per Capita Grant, 1979 Schedule	
Population Range	Rate of Grant
0- 5,000	$\$7.00 \times (\text{Pop.})$
5,001- 10,000	$\$ 35,000 + \$7.40 \times (\text{Pop. over } 5,000)$
10,001- 15,000	$\$ 72,000 + \$7.60 \times (\text{Pop. over } 10,000)$
15,001- 20,000	$\$ 110,000 + \$7.80 \times (\text{Pop. over } 15,000)$
20,001- 25,000	$\$ 149,000 + \$8.00 \times (\text{Pop. over } 20,000)$
25,001- 50,000	$\$ 189,000 + \$8.20 \times (\text{Pop. over } 25,000)$
50,001- 75,000	$\$ 394,000 + \$8.40 \times (\text{Pop. over } 50,000)$
75,001-100,000	$\$ 604,000 + \$8.60 \times (\text{Pop. over } 75,000)$
100,001-200,000	$\$ 819,000 + \$8.80 \times (\text{Pop. over } 100,000)$
200,001 or more	$\$1,699,000 + \$9.00 \times (\text{Pop. over } 200,000)$
Regions	\$10.00

Per Capita Grant—Policing

- \$10.00 per capita to municipalities where local police forces exist.
- \$15.00 per capita to municipalities where regional police forces exist.
- These grants will be determined on the basis of the population set out in the Appendix.

Per Capita Grant—Density

- The grant rates are determined on the basis of the following density schedule where the density of an area municipality is defined as the ratio of 1978 residential households to hectares.

Density	Amount Per Capita
0.375 and under	\$5.00
Over 0.375 to and including 0.75	4.00
Over 0.75 to and including 1.125	3.00
Over 1.125 to and including 1.5	2.00
Over 1.5 to and including 1.875	1.00
Over 1.875	Nil

- The per capita amounts will be applied to the grants population set out in the Appendix.

Resource Equalization Grant

- The standard will be increased to \$10,800 per capita. As a result, relative assessment deficiency will be the amount by which a municipality's per capita equalized assessment falls below the standard of \$10,800, divided by \$10,800.
- 60 per cent of the relative assessment deficiency will be recognized for grant purposes.
- The maximum grant will be 25 per cent of net general dollar levies.

General Support Grant

The grant for all municipalities will be 6 per cent of their net general dollar levies.

Northern Ontario Special Support Grant

The special grant to municipalities in the northern part of the province will be 18 per cent of their net general dollar levies.

District of Parry Sound Support Grant

The special grant to municipalities located in the District of Parry Sound will be 18 per cent of their net general dollar levies.

Net General Dollar Levy

The net general dollar levy bases for resource equalization and support grants will be updated to 1978.

Municipal Grants Population

The 1979 Municipal Grants Population, published in the Appendix, is determined as follows:

- the 1978 population, excluding population living on a military base, as determined under Sections 23 and 23(a) of The Assessment Act; plus
- a deemed temporary population equal to one-third the number by which the above population falls below the product of 2.5 times the number of non-military households in 1978; plus

- the residents of military bases which are not designated as self-contained; plus
- one-third of the residents of a self-contained military base. (Self-contained bases are those designated by the Department of National Defence, which at present are the bases in Essa Township, Opasatika Improvement District, Petawawa Township, Petawawa Village, Pittsburgh Township, Sidney Township, Tosorontio Township, Bosanquet Township and the Town of Valley East.)

APPENDIX
ESTIMATED 1979 UNCONDITIONAL GRANTS
AND 1979 GRANTS POPULATION

ESTIMATED 1979 UNCONDITIONAL GRANTS AND 1979 GRANTS POPULATION

The 1979 grants figures in the following table are intended solely as a guide to municipalities in their budgetary process. The grants incorporated in the figures are: general per capita, policing per capita, density element, resource equalization, general support and special support grants.

With the exception of population, several components in the grants calculations are estimated. In addition, several of these estimates are based upon unaudited, forecast information supplied by municipalities. Accordingly, THE GRANTS FIGURES SHOULD NOT BE INTERPRETED AS EXACT ENTITLEMENTS. Local treasurers have already received the appropriate documentation to enable them to determine a more precise estimate of 1979 unconditional transfers.
